

SEVERE STORM TIPS

Protect your pet during severe storms

- Saturated soil and strong winds can topple fences, gates and trees allowing your pet to escape
- Lightning and thunder scares most pets and can cause them to bolt.
- Have your pet micro-chipped, licensed, and have them wear a collar and ID tags
- During storms keep pets indoors in a sheltered area
- If your pet gets extreme anxiety talk with your veterinarian about options
- If your pet does get lost, check out our [Lost and Found web page](#)
